081234855470 | fahdhillaby2711@gmail.com | <https://www.linkedin.com/in/mohammad-fahd-ali-hillaby/> | <https://fahdaby.github.io/>

Gresik & Surabaya, Indonesia

Data Science graduate with strong experience in data analysis, dashboard development, and machine learning. Proven ability to improve reporting efficiency by developing real-time dashboard systems and transforming large-scale datasets into actionable insights. Skilled in Python, SQL, and NLP, with hands-on experience in building data-driven solutions, including web-based reporting systems and predictive models (XGBoost, LSTM). Strong analytical mindset with a focus on solving real-world business problems through data.

Education Level

Universitas Airlangga - Surabaya

Jul 2022 - Feb 2026

Bachelor of Data Science Technology, 3.77/4.00

- Best Graduate in Data Science Technology
- Outstanding Graduate in Data Science Technology
- Awardee of BSI Scholarship Prestasi (2023–2025)
- BSI Scholarship Talenta (2025–2026)
- Silver Medalist, IT and Robotics Category – 6th World Invention and Competition Exhibition 2024 (Malaysia)
- Finalist – 37th PIMNAS (National Student Science Week)
- Secured national funding for research projects (PKM 2023 & 2024)
- Contributed to academic research and co-authored 2 scientific publications

Work Experiences

PT. Global Jet Express (J&T Express) - Surabaya, Indonesia

May 2026 - Present

Management Trainee Supervisor

- Participated in intensive management training program focused on operational processes, SOP, and team coordination
- Recognized as Best Participant in the first week for outstanding performance and adaptability
- Demonstrated strong data handling skills, awarded as participant with best Excel proficiency
- Assisted in operational analysis and reporting to support efficiency and workflow improvement

PT. Semen Indonesia (SIG) - Gresik, Indonesia

Jan 2026 - Mar 2026

CSR Data Analyst Intern

- Developed and deployed a web-based data management system using Python (Flask), reducing manual reporting processes and improving workflow efficiency
- Built real-time interactive dashboards, enabling faster monitoring of payment progress and financial performance
- Replaced manual Excel-based reporting, improving data accuracy and accessibility across stakeholders
- Processed and structured datasets of up to 500K+ records, supporting faster and more reliable decision-making

DACRC (Dementia and Aging Care Research Center) - Surabaya, Indonesia

Oct 2025 - Jan 2026

IT & Social Media Specialist Intern

- Managed and optimized organizational website using WordPress, improving content publishing speed by up to 2x faster
- Maintained and organized internal data using Microsoft Excel, improving data accessibility and workflow efficiency
- Designed and published digital content using Adobe Photoshop, increasing social media engagement by 2.5x
- Streamlined content publishing processes, improving efficiency by approximately 2x

PT Indospring Tbk - Gresik, Indonesia

Jun 2025 - Jul 2025

Human Capital Internship

- Analyzed employee engagement and sentiment data using NLP techniques (Sastrawi), processing large-scale HR datasets
- Developed interactive dashboards (Python & Tableau), reducing reporting time and enabling faster insight generation
- Transformed raw HR data into actionable insights to support strategic HR decision-making
- Improved data quality through cleaning and preprocessing, enhancing overall analysis accuracy

Lab. Teknologi Sains Data, Universitas Airlangga - Surabaya, Indonesia

Aug 2025 - Dec 2025

Assistant Lecturer in Multivariate Lab

- Guided 50+ students in applying multivariate statistical methods (MANOVA, Factor Analysis, Cluster Analysis)
- Assisted in data analysis using SPSS and R, improving students' understanding of statistical modeling
- Supported practical learning in data-driven analysis and interpretation
- Facilitated hands-on sessions and provided feedback to enhance students' analytical and problem-solving skills

Organizational Experience

IRIS: Innovative Research on Intelligent Systems - Surabaya, Indonesia

Jan 2025 - Dec 2025

Head of Public Relation

- Led a team of 5 members to execute public relations and branding strategies
- Managed external events (20–60 participants), including international guest visits and inter-organizational study visits
- Established media collaborations to expand event promotion and organizational visibility
- Increased social media engagement and exposure by 3x, growing followers from 200 to 700+
- Strengthened organizational branding, resulting in higher interest and participation from new members

BEM FTMM - Surabaya, Indonesia

Jan 2024 - Dec 2024

Inspector General

- Oversaw 3 ministries (Kewirausahaan, Adkesma, and Keristek) with 60+ total members
- Supervised and evaluated 25+ work programs, ensuring alignment with organizational goals
- Acted as steering committee in each program, leading monitoring and post-event evaluations
- Maintained high execution rate, with ~95% of planned programs successfully delivered
- Provided strategic recommendations to resolve operational challenges and ensure program continuity
- Strengthened discipline and accountability across ministries, improving overall organizational performance

Projects & Skills

- **Projects** (2025): Maybank Customer Review Sentiment Dashboard (Data Science Consulting) Developed an interactive Tableau dashboard to analyze customer sentiment (positive, neutral, negative). Enabled faster insight generation for customer satisfaction and decision-making.
- **Projects** (2025): Geospatial Analysis of Socio-Economic Inequality in Indonesia Performed geospatial and quantitative analysis to map regional disparities across provinces. Identified priority areas to support data-driven policy insights.
- **Projects** (2025): Nailysist: Disease Detection using Deep Learning Built a deep learning model to detect potential diseases from nail images. Applied computer vision for non-invasive early diagnosis support.
- **Projects** (2025): Alzheimer Detection using CNN (Meta-Analysis Study) Analyzed and compared CNN model performance for Alzheimer detection using MRI data. Identified effective approaches based on multiple research findings.
- **Projects** (2024): Gamelan Instrument Classification using Machine Learning Developed ML models using audio features (MFCC, STFT) and achieved 96% accuracy. Applied classification techniques for traditional instrument recognition.
- **Hard Skills** : Programming (Python, SQL, R), Data Analysis & Machine Learning (Pandas, NumPy, Scikit-learn, TensorFlow, Statsmodels), Data Visualization (Tableau, Matplotlib, Seaborn), Natural Language Processing (Sastrawi), Data Handling & Tools (Excel, SPSS, Jupyter Notebook), Web Development (Flask)
- **Soft Skills**: Analytical Thinking, Problem Solving, Communication, Leadership, Adaptability
